# STUDY ARCHITECTURE AT BIRMINGHAM CITY UNIVERSITY (BCU)

If you would like to study an architecture degree, why not choose Birmingham City University? It's big, modern and located in the vibrant heart of the UK's second city!

## 3 REASONS TO CHOOSE BCU

- Nine in 10 graduates are employed or in further study (DLHE Survey 2016/17).
- BA (Hons) Architecture is accredited by the Royal Institute of British Architects (RIBA) and the Architects Registration Board (ARB), providing full exemption from the ARB/RIBA Part 1 examination.
- Gain industry experience through live projects, guest lectures and work placement opportunities.

## INDUSTRY-STANDARD FACILITIES

- The woodwork studio gives you hands-on access to the tools needed to produce furniture to the scale of your architectural models.
- The 3D CAD Lab includes 3D printers – perfect for scale models, prototyping and concept development.
- Alongside the 3D printers and laser cutters, you will also have access to a specialised rapid prototype machine – all of which are used in industry.

## STUDENT SUCCESS

**Emre Suner, from Turkey**

**Completed Foundation Art and Design at BCUIIC**  
**Currently studying BA (Hons) Architecture**  
**(RIBA Part 1 Exemption) at BCU**  
**Recently completed a work placement with**  
**Maber Architectural Practice**

“My experience at BCUIIC was one to remember! The classes were very encouraging in terms of experimenting with different media. For example, using plaster – I had never done that! And screen printing, it was one of my favourite things.

“The workshops I got introduced to in BCUIIC actually helped me with my current final models that I have to do for my degree. You can always handmade models, but for your final models you want them to be extra neat and presentable. Now, I can do metal works, wood works, plaster even, for all the models I have to present at the end of each project.”
